PROFILE

As a fresh graduate AI engineer, I am equipped with a strong foundation in artificial intelligence and machine learning, along with hands-on experience in developing innovative solutions. With a passion for cutting-edge technology and a drive to tackle complex problems, I am ready to contribute my skills to drive advancements in the field of AI.

EDUCATION & TRAINING

Master's degree in Computer Science

2024 - present

SVU- Syrian Virtual University

Bachelor's degree in AI

2017 - 2023

Tishreen University

Montessori training

2023

United Nations High Commissioner for Refugees

MAIN PROJECT

Hate-Speech-Detection-in-Social-Media
Graduation Project   2023

- Preprocessing data (analyze, prepare, clean, reduce, transform)
- Data augmentation
- Building our model
- Manage a team of my college mates.
- Analyze the system and set the requirements.

we address the challenges of freedom of speech and misuse of social media platforms like Twitter, conducting comprehensive research to propose a solution. Utilizing a publicly available dataset and applying NLP techniques, we analyze, preprocess, and engineer features to evaluate the performance of different machine learning classification algorithms. Our work concludes with a detailed analysis of results and insights into model misclassifications.

VOLUNTEER EXPERIENCE

Maak Association

2023 .. present

- Support cancer patients specializing in psychological support
- Teaching children to maintain their academic performance.
- English language teacher
